In part to help prevent leaks

Questioned whether cases from
Truman Library are being handled
correctly. When doc stamped
that CIA has reviewed & retains
classification, Truman Library
should send that doc/pkg by
the regular, agreed way which
is to CIA - State - NSC. In
a couple of recent cases
they sent them to State - NSC
leaving off CIA. We agreed
this was not a good policy &
Brenda Reger will call the
Truman Library & straighten this
out.

NOTE: Attached are some notes that I
took while reviewing several documents.
Ms. Reger asked me to review in relation
to the Truman Library matter mentioned
above. My conclusion was that there
is no real problem here & I so
informed Brenda.
